## RESTRICTIONS REMOVED.

### The Interior Department Sends Special Agent to Hear Applications.

Secretary Hitchcock has appointed Chas. O. Shepherd special inspector to hear and determine applications for the removal of restrictions on titles to allotments other than homesteads. Evidence will be taken in support of application for removal of restrictions filed by Cherokees at Vinita next Monday, April 10.

### WHOLESALE "BOOZE."

#### Marshals Capture Twenty Gallons of Whiskey at Frisco Depot.

Deputy I. T. Gilstrap arrived on the midnight Frisco passenger train from the east last night and noticed a suspicious trunk unloaded at the station here and ordered it held until this morning when Marshal Darrough investigated the trunk and found two ten gallon kegs of whiskey.

No marks whatever were on the trunk. Whoever sent it evidently simply paid the baggage man to put it off at this place with the other trunks, etc.

Mr. Darrough bursted the kegs and spilled the "booze." A negro ran up with a dipper and caught a little of it, but he only got a taste, as Mr. Darrough knocked the dipper from his hands.

An effort is being made to discover who put the trunk on the train.

#### Ballard's Horehound Syrup.

Immediately relieves hoarse, croupy cough, oppressed rattling, rasping and difficult breathing. Henry C. Sterns, Druggist, Shullsburg, Wis., writes, May 20, 1901: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25c, 50c, \$1.00. Sold by Peoples Drug Store. dw

### GRANT'S NARROW ESCAPE.

#### Former Engineer Tells of First Presidential Trip in Territory.

The fact that President Roosevelt's train is to be preceded by a pilot engine on its trip south recalls to the minds of old settlers the time when the special on which President Grant and the members of his cabinet were making a trip through Indian Territory in 1874 narrowly escaped being wrecked by a lack of such precaution. John Adams, now chief secretary to Chief Porter, of the Creek nation, was then an engineer on the M. K. & T. railroad in the territory. He tells the story as follows:

"The president was scheduled to stop at Vinita for a half hour to meet E. C. Boudinot, a prominent Cherokee citizen, who advanced the then novel idea that Indian lands should be allotted. When Gen. Grant's train reached the town S. S. Stephens, general manager of the road, found out that Boudinot could not be there to meet the president, and without thinking of the conductor's orders, told him he might as well pull ahead to the next station. The conductor did so, forgetting that he had orders to allow my train to pass him at Vinita.

"I was pulling a caboose and a few cars along at a speed of about forty miles an hour, and had just rounded a curve and happened to emerge upon a long, level stretch of track, when I saw the president's train coming at high speed. Luckily, the engineer on the presidential special saw us in time and backed into a siding which was close by. We had met at any other point on the track, a bad head end collision would have been inevitable, and the president and several members of his cabinet who were accompanying him, would scarcely escape death or serious injury. The railroad company succeeded in hushing the matter up and the newspapers of that day did not learn of the incident."

General Grant's visit was the first presidential trip ever made through Indian territory. The M. K. & T. railroad had just been extended through the Indian country, and it offered an excellent opportunity for the president and party to view a section of the wild and very thinly settled by the white man.—Kansas City Journal.

### THE STOCK SALE.

#### April Sale Attendance Larger Than Any Previous Month.

The fifth of the monthly stock sales is taking place this afternoon at Gray's mule barn. This will no doubt be a greater success than any of the other sales as there is more to sell and more buyers than at the others. These monthly sales are one of Vinita's best things. When they were first inaugurated the first Monday in December a few doubted the success of the enterprise, but each month they have been growing and you can now buy or sell most anything in the way of stock or farm implements. Some really fine stock is being sold at these sales and bring a good price. The stock show at each of the sales has also been quite an attraction. The complete list of premiums awarded at this one will be published in tomorrow's Chieftain.

#### SOME LATE PREFERENCES.

Storm coats are made shorter—the three-quarter length alternating with a length about ten inches from the ground.

Those long storm coats proved a delusion, for they grew sopping wet about your feet, in spite of all you could do.

Overgarters, which have been worn by smart women this winter, are going to be a distinct adjunct to the spring toilet. Not only in the contrasting shades, such as browns and grays, but also in colors to match the gowns they will be popular. While the idea savors of London town and Anglomania, yet when so many young women wear low shoes the winter through, garters are not only permissible, but an actual necessity.

Fine white bobbinet makes most satisfactory curtains for people of moderate means, as they launder well, drape gracefully and wear a long time. Simplicity should prevail in their arrangement.

Some of the daintiest collars are of white linen worked in white, or in soft muslin worked in black and white, scarlet or navy blue—in fact, with some color that shall match exactly the tone of the blouse or gown.

In the dainty crepe robes the neck is almost invariably cut low, either V-shaped or round. Cascades of lace in the form of elongated jabots finish most of the crepe gowns.
